Nicola Breytenbach has her beauty essentials all zipped up

Nicola Breytenbach is one of our top modelling exports and besides working up a storm over the last 10 years, she's created her own fragrance, Nicola, which is about to be launched in SA. We asked her what she does to keep her fabulous face flawless. **Skin saver** 'A facialist in Cape Town got me hooked on Dermalogica. I use their Intensive Moisture Masque once a week. It's great for hydration, especially in winter and after a long-haul flight.' **On guard** 'For as long as I can remember I've protected my skin from the sun. I always use a factor 30 on my face and 15 or higher to protect my body.' **International buy** 'I love Laura Mercier's skin-care range, especially her moisturiser with SPF 15.' **Want to get Nicola's look?
